BANGABASI MORNING COLLEGE PHOTOGRAPHY CLUB

The Photography club of the college started functioning from November 2019. Only bona fide photography interested students are the member of the club. Photography is a wonderful hobby and has proved to be very popular among the students. This club focuses on taking and collecting fine photographic shots and participating in photographic competitions. Students can also learn many of the technicalities involved in digital as well as film based photography.

The aim of the club is to promote photographic interest within the university and provide a place for anyone with an interest in photography to meet and exchange ideas and share experiences. The club organizes various lectures, demonstrations, and competitions. It is our practice to welcome everyone with an interest in photography, regardless of their experience.
